

CATERRACKS

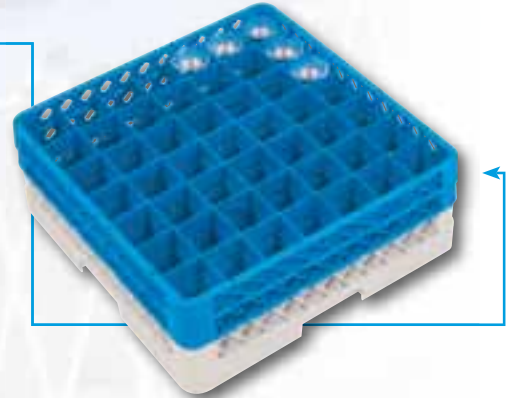

2011
2012

Offers an efficient solution for all kinds of problems, connected with ware-handling. These sturdy racks reduce breaking, save space and increase productivity. Their open structure allows maximum exposure to washing action and facilitates washing and drying. Made from the best materials, CATERRACKS is designed for many years of trouble-free life. The double wall construction adds strength and durability and cushions washing action and shock of handling. CATERRACKS are delivered assembled and ready for use.

The open extender adds height to protect glassware when loaded racks are stacked one upon another.

The compartment extenders provide maximum separation and protection between glassware while adding height.

The extender system allows fast, simple assembly without loose screws or other fasteners. Fixed extenders will not separate.

MM Ø 150 - 9 COMPART.

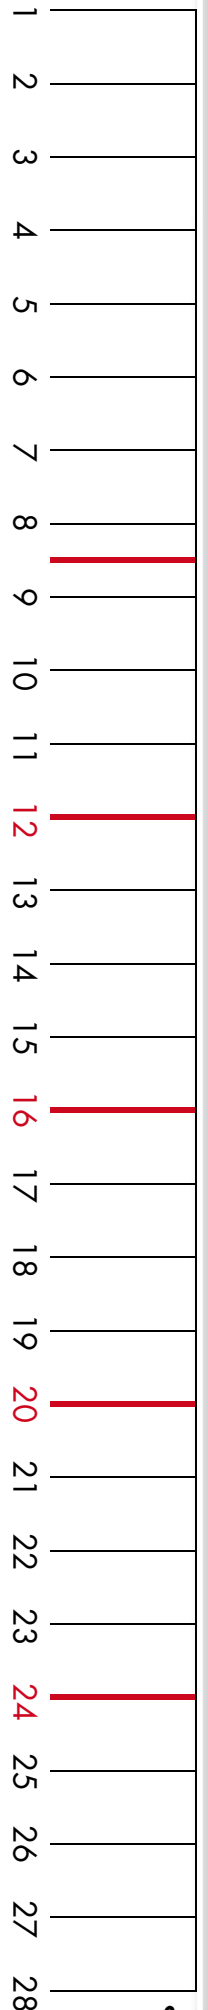

MM Ø 112 - 16 COMPART.

MM Ø 90 - 25 COMPART.

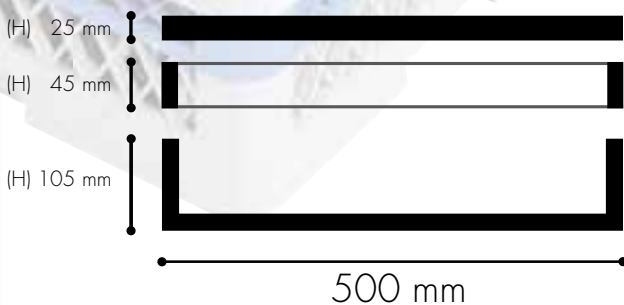

MM Ø 74 - 36 COMPART.

MM Ø 63 - 49 COMPART.

* This graduation is in CM - when printing a scale deviation can occur

To determine compartments size. Place glass upside down over chart. Whatever compartment the largest diameter of glass fits within will determine the number of compartments and their size.

CUP RACK - the cup rack CR 20 has 20 compartments of 89 x 112 mm, each compartment with a tilt bar for drainage.
